Committed to *Your* Intermodal Success

IMPORTANT PEGASUS™ BENEFITS

Pegasus™ gives your organization a complete, turn-key intermodal TMS without the time and costs of “home grown” systems development

- ✓ Manage bi-modal freight at a world-class level:
 - Orders (multi-stop pickup, delivery, spot, long-term, Hazmat, more)
 - Drivers (company, owner ops, contract), drayage vendors
 - Rail schedules, costs, interlining, facilities, restrictions
 - Intermodal equipment (trailers, containers, chassis, gensets, more)
- ✓ Reduce transportation expense through optimization
- ✓ Manage and automate complex customer requirements
- ✓ Provide customers with fully automatic reporting through e-mail delivery, EDI, or your branded web portal
- ✓ Fast and efficient vendor settlements and customer billing
- ✓ Reduce development and support costs by moving to the Pegasus™ packaged platform. Source code and hosted solutions available.
